

# CPSC 100: Group Retrospective

## Round 0: Practice • Completing your group contract

### What is a retrospective?

A retrospective is a group conversation about **how you worked together and what to improve next time**.

- **This round:** Reflect on your process for completing the group contract: discussing, drafting, reviewing, and revising.
- **Group size:** 4 or 5 students.
- **Suggested time:** 30–45 minutes. Take longer if needed; there are no time limits for individual steps.
- **Format:** Complete one shared copy. Short bullet points are enough.
- **Submission:** One group submission on Canvas. Each member completes iPeer separately.

### Retrospective dates

| Round        | Focus                                                   | Due date                   |
|--------------|---------------------------------------------------------|----------------------------|
| 0: Practice  | Completing the group contract                           | Thursday, October 1, 2026  |
| 1: Project 1 | Teamwork during Project 1                               | Thursday, October 29, 2026 |
| 2: Project 2 | Teamwork during Project 2 and lessons for future groups | Thursday, December 3, 2026 |

- **All deadlines: 11:59 p.m. Pacific.** Check Canvas for final submission details.
- Complete your group discussion before submitting individual iPeer evaluations.

### Before you begin

- Open your contract, drafts, feedback, and relevant messages.
  - Let everyone speak. Listen before responding.
  - Use real examples: describe **what happened and its effect**.
  - Record different perspectives fairly; agreement is not required on every point.
  - Write “Not yet” for stages you have not reached. Do not invent experiences.
  - Complete iPeer independently. Do not agree on scores as a group.
  - Share sensitive concerns privately with your TA.
-

## 1. Get ready

- **Group number/name:** [Enter here]
- **Lab section:** [Enter here]
- **Meeting date:** [Enter here]
- **Members present:** [Enter here]

**Assign meeting roles.** Everyone still contributes to the discussion.

| Role                  | Responsibility                                             | Name   |
|-----------------------|------------------------------------------------------------|--------|
| Facilitator           | Guide the discussion through the prompts.                  | [Name] |
| Note-taker            | Record the group's main points.                            | [Name] |
| Participation checker | Make sure everyone has a chance to speak.                  | [Name] |
| Progress checker      | Check that the group is ready to move on.                  | [Name] |
| Action checker        | Check that actions have owners, dates, and clear outcomes. | [Name] |

- **5 members:** One role each.
- **4 members:** One person combines a progress checker and action checker.
- Rotate roles next time.

## 2. Think on your own

- Each person fills in their row **before discussing**.
- Focus on completing the contract. Include a specific example.
- Groups of 4: delete the fifth row.

| Member     | How I contributed | What helped or made the process difficult | What I would do differently |
|------------|-------------------|-------------------------------------------|-----------------------------|
| [Member 1] | [Notes]           | [Notes]                                   | [Notes]                     |
| [Member 2] | [Notes]           | [Notes]                                   | [Notes]                     |

| Member                    | How I contributed | What helped or made the process difficult | What I would do differently |
|---------------------------|-------------------|-------------------------------------------|-----------------------------|
| [Member 3]                | [Notes]           | [Notes]                                   | [Notes]                     |
| [Member 4]                | [Notes]           | [Notes]                                   | [Notes]                     |
| [Member 5, if applicable] | [Notes]           | [Notes]                                   | [Notes]                     |

### 3. Share and listen

- Take turns sharing your notes; let each person finish.
- Ask clarifying questions before proposing solutions.
- The note-taker summarizes the discussion below.

#### How did we complete the contract?

- **Organizing:** How did we divide the drafting and coordinate the work?
  - [Our answer]
- **Deciding:** How did everyone share expectations? How did we handle different preferences?
  - [Our answer]
- **Reviewing:** How did we check that everyone understood and agreed with the final wording?
  - [Our answer]
- **Revising:** How did we respond to feedback and share the revision work?
  - [Our answer, or “Not yet”]

#### What stood out?

- **One thing that worked well and its effect:** [Example]
- **One difficulty and its effect:** [Example, or “None identified yet”]
- **Different perspectives to record:** [Answer, or “None raised”]

*Example: “We split up the contract sections but skipped a shared review, so two sections had conflicting expectations.”*

### 4. Decide what to change

Based on your contract experience, identify habits for your next shared task.

- **Continue:** What helped us that we should keep doing?
  - [Habit and why]

- **Stop or adjust:** What made the process harder?
  - [Habit and why, or explain why no change is needed]
- **Start:** What new habit should we try?
  - [Habit and why]

#### Did our process match our contract?

- **One expectation we wrote:** [Answer]
- **What we actually did:** [Answer]
- **Any change needed in our process or contract:** [Answer]

#### 5. Choose two actions

- Choose **two manageable actions** based on what you learned.
- Name a person to follow up; they do not have to do all the work.
- Add a date and an observable sign of improvement.

| Action               | Follow-up person | By when? | How will we know it helped? |
|----------------------|------------------|----------|-----------------------------|
| 1. [Specific action] | [Name]           | [Date]   | [Result we can check]       |
| 2. [Specific action] | [Name]           | [Date]   | [Result we can check]       |

*Example: “Maya will arrange a review deadline for our next shared draft, at least 24 hours before submission. We will check that every member reviewed it and that conflicting sections were resolved.”*

- **Next check-in date:** [Before the next retrospective]
- **Support needed from our TA:** [Answer, or “None right now”]
- Start your next retrospective by reviewing these actions: **What did we try? What changed?**

#### 6. Review and submit

- ☐ Everyone contributed, including any absent member before submission.
- ☐ Our notes fairly describe how we completed the contract.
- ☐ We compared our process with our contract's expectations.
- ☐ Both actions have a follow-up person, date, and way to check progress.
- ☐ Everyone reviewed the final copy and could suggest corrections.
- ☐ One person will submit on Canvas; everyone will complete iPeer separately.

**Canvas submission by:** [Name]
